Hi Jim-

Although we talked last week about EPA holding off on providing comments to Lakeside's response until after you received additional information supporting Lakeside's comment #1, our folks were already in the process of reviewing and have these comments. Sorry for any confusion. Please call or email if you have questions. Thanks.

Eva

Subject: Lakeside SCE Response to Comments

Dear Jim,

Please find the attached PDF of the Lakeside Source Control Evaluation response to comments with stamped signature page. The PDF has been secured and metadata has been included following the formatting recommendation sheet provided by you.

One bound and one unbound hard copy, and a CD with the file on it are ready to go out in the mail to DEQ.

We plan to submit our Sampling and Analysis Plan (SAP) this week to fill the data gaps identified in comments and recognized in our response to comments. We look forward to your approval of the SAP before beginning field work.

Sincerely,

Janet N. Knox, LG | Principal Environmental Chemist
